

AstroBlast

Get Involved Join ORAS

A great place to learn about space

An annual event, AstroBlast is a regional gathering of amateur astronomers and anyone interested in astronomy! AstroBlast is scheduled around an August weekend closest to the new Moon. Our 5 day event is held at the Oil Region Astronomy Learning Center and features lectures, information, educational sessions and dark sky observing.

AstroBlast is open to registered participants only. Spend a day (or all 5 days) with us. Beginners are strongly encouraged to attend. Bring your own telescope and learn from other knowledgeable amateur astronomers.

Visit the **About AstroBlast** page on our website for all of the scheduling and registration details. www.oras.org

Join ORAS and enjoy the many benefits of membership. ORAS offers a variety of membership options for individuals, students and families.

Benefits include:

Access to the gated observatory site, a great place to get away from the lights and spend some quiet time with nature under the stars. Spend an evening or stay for the weekend.

Observatory Training. Required to use ORAS' observatory and telescopes.

Membership in the Astronomical League.

Remote access to a telescope near Perth, Australia.

Access to many knowledgeable individuals in the field of astronomy.

Check out the **Join ORAS** page on our website for all of the details.

Welcome to the Night Sky

Welcome to the Oil Region Astronomical Society. We invite you to join us in admiring the majesty of the night sky of northwest Pennsylvania.

We enjoy sharing our knowledge, experience and facilities with others who are passionate about the stars, the planets and space in general.

Please plan to visit us. All are welcome here.
